

Pro Tools & Equipment, Inc.

**SPRAY BOOTH & PREP STATION
FILTER APPLICATION GUIDE**

Thank you for choosing Pro Tools & Equipment, Inc. as your spray booth filter supplier. As your supplier, we continually strive to make your job of selecting filters as easy as possible. One way we do this is to provide you with a simple, concise and as complete as possible a listing of spray booth brands and styles and there filter requirements. Please note that while the following filter application guide will prove to be an excellent tool for determining the correct size and quantity of filters required for filter replacements, it is still only a guide. While we have tried to list as many of the booth manufacturers and styles, and the correct filter sizes, **we recommend that you physically measure each filter or holding frames to ensure accuracy. In the case of bag filters note the number of pockets and measure the depth of the pocket.**
