

PROTECT-O-SCREENS®

Steiner **PROTECT-O-SCREENS®** protect workers from hazards of welding sparks, spatter and UV flash. Patented modular design offers outstanding durability and flexibility in use.

Large selection of standard size frames, curtain materials, and colors.

DURABILITY

- Sturdy 18 gauge steel, black-rust-resistant enamel finish, and square tube frame is designed to eliminate slipping and twisting that occurs with round tube frames
- Supplied with 18" sturdy platform legs to ensure stability. Optional casters allow quick and safe mobility.
- Slip-fit construction permits quick, easy, and flexible assembly without tools

FLEXIBILITY

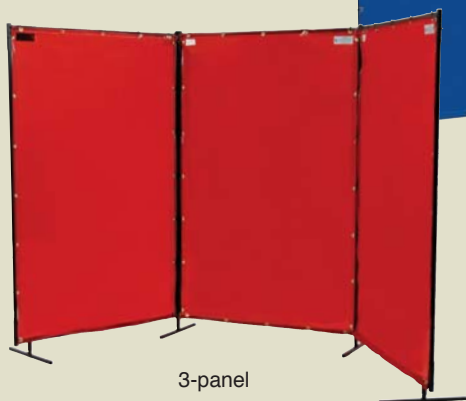

- **PROTECT-O-SCREENS®** offers more flexibility than any other safety Screen on the market...7 interchangeable sizes and wide variety of material and color choices
- Protect-O-Screen patented framing system provides the widest range of multi-panel configurations. The unique **PROTECT-O-SCREENS®** modular design allows addition, removal, or rearranging of panels to adapt to a new condition. Use individually or join together to form multi-panel enclosures
- Any screen can be used horizontally or vertically
- Screen curtain materials can easily be replaced with Steiner Standard size curtains shown on page 39

PROTECT-O-SCREENS® Curtains are grommeted every 12" on four sides to attach curtains to screen frames with adjustable nylon ties. Each **PROTECT-O-SCREENS®** contains square tube frame top, bottom & sides, corners, 18" legs, plastic ties, and curtain material in sizes designated.

PRODUCT INFORMATION AND SELECTION GUIDE

Olive Drab Cotton Duck – 12 oz. flame retardant cotton Duck is opaque and blocks all flash and harmful rays, resists flame, water and mildew. General purpose, economical protection against light sparks and spatter.

Tinted Transparent Vinyl – 14 mil flame retardant vinyl provides protection from the harmful UV rays, and sparks for the casual viewer or passerby. Various colors are available.

Vinyl Laminate – This material is opaque and blocks all flash and harmful rays. Strong and lightweight, flame, water and mildew resistant. Good resistance against punctures, tears, and abrasion. For more information regarding the replacement panels & available materials, see pages 38-39.

Warning: Transparent vinyl welding curtains are not intended as a substitute for normal eye protection for close or long-term viewing. The user must wear protective eyewear suitable for the application. Clear Transparent vinyl is not for use in welding applications.

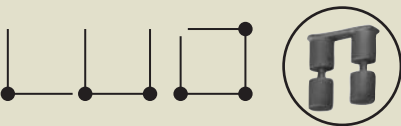

SCREEN ACCESSORIES

Steiner's unique Screen panel connector system joins single, modular **PROTECT-O-SCREENS®** using either two or three-panel connectors to form multi-sided enclosures, in-line dividers, or safely enclose on four sides. Screen Panel Connectors are easily inserted into the hollow square steel frame top and bottom corners.

54202

• 2-PANEL CONNECTOR

- Connects 2 Screens together to form a 2, 3 or 4-sided enclosure.

54203

• 3-PANEL CONNECTOR

- Connects 3 Screens together from a common hub.

54600

• CASTER WHEELS

- 2" high heavy-duty casters allow Screens to easily roll out of the way!
- (2 per leg, 4 required per Screen)

port-o-screen™

Protects from hazards of UV flash, spatter, or sparks for remote jobsites or maintenance repairs.

- Free standing...portable...easy to use...economical
- Quick, easy set-up and take down, Just roll open and stand up on horizontal end. When done, Roll up and carry away
- Built-in tie strap and carrying handle
- No hardware or tools necessary
- Flexible inner core wire mesh permits **port-o-screen™** to stand alone
